## ? Investor FAQ

### **Q: How do the 8% royalties work?**

All 185 Investment NFT holders share 8% of every Production NFT sale, distributed proportionally to their investment amount.

Example: If 1,000 Cow NFTs sell at \$4,900 each = \$4.9M in sales. 8% of that is \$392,000. Each Tier 1 NFT gets \$8,036; each Tier 4 NFT gets \$509. This happens with EVERY Production NFT sale

### **Q: When does my monthly income start?**

Monthly production income from your animals starts within 90 days of purchase. Phase 2 royalties begin when Production NFTs launch (anticipated Q2 2026).  
infinitely

### **Q: Can I sell my Investment NFT?**

Yes, Investment NFTs are fully transferable on secondary markets like OpenSea. All benefits (monthly income + 8% royalty share) transfer to the new owner.

### **Q: Do I get equity in Fresh Field?**

No, Investment NFTs do not represent equity ownership. You receive graduated profit sharing from your animals (25-50%) and 8% of Phase 2 Production NFT sales, but no equity stake or voting rights in the company.

### **Q: What if I'm not accredited?**

U.S. investors must be accredited (\$200K annual income or \$1M net worth excluding primary residence). International investors should check local regulations - many countries have no accreditation requirements.
